VETERINARY NON-PRESCRIPTION DRUGS

The instructions for Newcastle Disease Live Vaccine (La Sota Strain)

NAME OF VETERINARY MEDICINE

English name: Newcastle Disease Vaccine, Live（Strain La Sota）

Chinese pinyin: Ji Xinchengyi Huoyimiao（La Sota Zhu）

MAIN INGREDIENTS AND CONTENT

This product contains the low-virulence and attenuated La Sota strain of Newcastle Disease Virus (CVCC AV1615). The virus content of each dose is not less than $10^{6.0}$ EID_{50}.

CHARACTER

Slightly yellow spongy loose mass, easy to separate from the bottle wall, and quickly dissolve after adding diluent.

FUNCTIONS AND USES

Used to prevent Newcastle disease in chickens.

USAGE AND DOSAGE

Inoculation by nasal drops, eye drops, drinking water or spray can be used. According to the bottle label, dilute the vaccine with normal saline or suitable diluent. Nasal drops or eye drops, each 0.05ml; drinking water or spray, double the dose.

MATTERS NEEDING ATTENTION

（1）For flocks infected with Mycoplasma gallisepticum, spray vaccination is prohibited.

（2）After dilution, it should be kept in a cool and dark place and used up within 4 hours.

（3）When drinking water for inoculation, the drinking water should not contain chlorine and other disinfectants, the drinking water should be clean, and metal containers should not be used.

（4）Used vaccine bottles, utensils and unused vaccines should be treated in a harmless manner.
